

MATERIAL HANDLING AND STORAGE SYSTEMS

All our rolling ladders have a 50 degree climbing angle permitting forward descent, a 13" or 20" deep platform, 40" high guardrails (depending on chosen model) and their steps are made of non-slip and self-cleaning material.

SELF DUMPING HOPPERS

These self dumping hoppers are designed to dump entire load when unlatched and automatically return to upright position when empty, latch fully secured. The unique rocker system on these hoppers offers a more efficient unloading through added momentum in forward tilt and will provide years of trouble-free use. May be fitted with optional casters for added mobility. Supplied standard with forklift slots for safe transportation and unloading. Stackable for freight savings. Three ranges of steel grade and 10 different sizes to meet all requirements.

NESTABLE TRUCK

Nests like grocery carts to save space when not in use. Wide chromed basket and zinc plated platform for better protection against rust and to allow for drainage of liquids. Easy to maneuver in tight aisles, it is supplied with 5" casters – 2 swivel and 2 rigid. Measures 23 x 42 x 36" high and weighs 70 lbs. Load capacity: 1200 lbs.

PLASTIC DECK PLATFORM TRUCKS

These platform trucks are specially designed for merchandise that has to slide on its deck, offering efficient protection against abrasion. Two sizes available. Supplied with 6" rubber casters – 2 swivel and 2 rigid – for a load capacity of 1800 lbs.

WAGON STYLE PLATFORM TRUCK

The handle of this platform truck is linked to a front-wheel directional system. Easy to maneuver, its 10" pneumatic wheels roll smoothly and easily on rough surfaces. Load capacity: 1000 lbs. Choice of steel or wooden deck.
