

## 14/6 Stackable Transport Containers

One of Schaefer's first stackable plastic container families. The 14/6 family is a good general purpose product line which can be used in both

industrial and food processing applications. Insert boxes allow internal organization of containers and are perfect for kitting parts.

These high quality HD polyethylene containers are robust, easy to clean and designed with a sturdy stacking rim and hand grips.

PE polyethylene is lightweight, sturdy and resistant to most acids and alkalis. It is also suitable for use with food stuffs and withstands temperatures of between -40° to +80°C.

Four colours (blue, green, red and yellow) facilitates ease of identification when order picking. 14/6 containers offer eleven sizes and six footprints with heights ranging from 2.9" to 11.9". Also available in black conductive plastic (see page 92).

The 14/6 range can be stacked in combination with steel 14/6 and plastic 14/7 containers (see page 98). The 14/6 PE containers are modular with all Schaefer's shelving systems.

## 14/6 Series Containers

ORDER #	OUTSIDE DIM. L x W x H	INSIDE DIM. L x W x H	CAPACITY (CUBIC FT)	TARE WEIGHT	RECOMMENDED LOAD	MAXIMUM STACK LOAD
<b>14/6 R</b>	18.9 x 13.4 x 4.6"	17.9 x 12.2 x 4.0"	0.57	2.3	22	220
